Internal export

Internal review material - not a customer quotation

SB-21 internal export evidence — synthetic frame program

Customer: SolidBOM internal evidence (synthetic)
Exported at: 2026-11-11T14:28:33.080Z
Currency: CNY - every amount below is stated in it
Characters outside the standard font's WinAnsi set are shown as '?'; the Excel workbook carries the exact text.

DRAFT RESULT | OUTDATED COSTS | UNPINNED FEASIBILITY RECORD

Result metadata

Selected result	Draft calculation 286e9de3-d9c9-442a-8bb0-b97434364eaf
Project record	v10 (pinned)
Engineering record	v9 (pinned)
Manufacturing record	v6 (pinned)
Feasibility record	v1 (read at export time)
Calculation id	286e9de3-d9c9-442a-8bb0-b97434364eaf
Calculator version	solidbom-manufacturing-baseline/1
Input hash	565be42ab4913a884267ddad6a9dd19fed381cc7738a0fc7de028abdb71e21e7
Result state	complete
Freshness labels	draft_result, outdated_costs, unpinned_feasibility_record
Stale reasons	newer shared data

Cost summary

Lifetime manufacturing total (including setup)	10,598.02
Separate setup total	246.00

Annual manufacturing cost

Year	Manufacturing cost
2027	2,366.66
2028	3,450.67
2029	4,534.69

Commercial scenarios

Scenario: Synthetic base case — manual prices for internal review

Saved version	v1
Comparability	directly comparable with the exported result
Lifetime revenue	162,775.72
Lifetime EBIT	152,423.69
Tooling investment (counted once)	21,000.00
Tooling separate charge	21,000.00
Projected tooling recovery	missing
Tooling under/over recovery	missing
Separate setup total	246.00

Per product and year

Product	Year	Forecast	Manual price	Revenue	EBIT amount	Tooling contribution	Suggested price
Side rail left	2027	100	185.00	18,500.00	18,290.06	missing	2.62
